

Bob George, widely known as a Christian teacher, author, pastor, and radio personality, came to know Jesus Christ as his personal Lord and Savior when he was thirty-six. Doing something that has become increasingly less common, he left his successful business in California and entered full-time ministry. In 1977, after many years in mainstream ministry, Bob founded the Dallas-based People to People Ministries in order to better spread the message of God's love and grace – a message Bob passionately believes will quell the stifling nature into which some contemporary Christian teaching has fallen.

His longtime bestseller *Classic Christianity*, in this edition celebrating its 20<sup>th</sup> year of publication, has been the core of Bob's ministry since its inception. It is written in such a way as to be both accessible to any reader regardless of training or background, and as adaptive as the ever-changing circumstances of life.
