

Five days before my 31 year old son died suddenly in his sleep, I was on the phone with him and for 50 minutes he preached with exuberance about the revelation of his assurance of salvation which became real to him through Classic Christianity--a book he said changed his life from works to rest. He was passionate about getting the book in my hand immediately. It was wonderful to hear Dave make the confession of a personal revelation of the blessed assurance of salvation.

I just wanted you to know how much he loved your ministry and how your book gave him such hope.
